ADDITIONAL CLASS NOTES

* Vintage Trans Am (VTA)

See usvintagetransam.com for Trans Am Rules and Specs. Current (pre-10/1/09) rules apply.

Find link on RCRacing page of RWH Website.

For 2011 one 25.5 BL / NoBoost package may be chosen as spec. Silver Can would still be allowed.

** F-I (Class Rules are a work in progress.)

Any 1/10 scale 2WD direct drive purpose-built F-I chassis (F103, F104, F109, HPI F10).

No hybrid cars...ie...pan car with a F-I body or pan car suspension.

Cars must be within the dimensions of the Tamiya F102/103/104 cars

F-I specific rubber or foam tires.

Tamiya type wheels only no pan car wheels. Realistic F1 bodies and wings with driver figure and head/helmet.

Realistic paint jobs would be cool also, but not required.

Making engine noises on the drivers stand allowed, laughing encouraged!

*** RWH GT

ESC / Legal: The SPIRIT of this class is to run without boost from the ESC. To be legal an ESC must be capable of and set to a mode which provides ZERO Timing Advance along with disabling Advanced Motor Control Functions (i.e. Boost, Cheat Mode, Turbo, Super Charge, etc.). The Race Committee will assist whenever possible, but it is each driver's responsibility to document that their ESC is in fact legal for 17.5 GT No Boost on race day as requested.

ESC / Not Legal: Tekin v203, Black Diamond, LRP SXX-SS (subject to change)

Body Rules: Any realistic (real car) body qualifies, production or race.

No "performance" bodies allowed, such as Protoform makes.

IFS bodies are legal, but no cut-outs allowed for shock towers.

All bodies must be readily available from manufacturer (no prototypes).

Wings and supports used must be supplied with body (cut along cut lines or smaller).

FAMILY FRIENDLY BEHAVIOR REQUIRED AT ALL TIMES
